

Young Energy Economists and Engineers Seminar – Spring 2018 Edition

Technology, Policy and Management Faculty

Delft University of Technology

Day 1: Thursday, April 12

	Classroom A
Walk-in, registration, coffee	8h30 – 9h00
Welcome speech by Prof. dr. ir. Paulien Herder	9h00 – 9h15
Morning Session: Classroom E	
Nina Voulis, Delft University of Technology	9h15 – 10h15
<i>Rethinking European Energy Taxation To Incentivise Consumer Demand Response Participation</i>	
Jelle Meus, KU Leuven	10h15 – 11h15
<i>An International Market For Tradable Green Certificates: The Impact Of Transmission Congestion On Efficiency And Distributional Welfare Effects</i>	
Charlotte Scouflaire, Université Paris Dauphine	11h15 – 12h15
<i>Information Disclosure Choice: Condorcet Winning Public Information Applied To Capacity Markets In Liberalized Power Systems</i>	
Morning Session: Classroom D	
Paul-Hervé Tamokoue Kamga, Mines ParisTech - PSL Research University	9h15 – 10h15
<i>Home Energy Efficiency Investments In Response To Energy Price Variations Evidence From France</i>	
Longjian Piao, Delft University of Technology	10h15 – 11h15
<i>Electricity Market For Direct Current Distribution Systems: A Survey Of The Design Space</i>	
Selma Causevic, Delft University of Technology	11h15 – 12h15
Lunch break	12h15 – 13h30

Day 1: Thursday, April 12

Afternoon Session: Classroom E

Isaac Gonzalez, Universidad de Comillas

13h30 – 14h30

Proactive Bi-Level GEPTEP With Storage Considerations

Cyril Martin de Lagarde, Université Paris-Dauphine

14h30 – 15h30

Drivers And Diffusion Of Residential Photovoltaics In France

Afternoon Session: Classroom D

Paul Malliet, OFCE-Sciences Po

13h30 – 14h30

Estimating The Elasticity Of Substitution Between Capital And Energy

From Abatement Curves: The Case Of The French Industry

Frederik Banis, Technical University of Denmark

14h30 – 15h30

Utilizing Flexibility In Microgrids Using Model Predictive Control

Coffee break

15h30 – 16h00

Afternoon Session: Classroom E

Jens Weibezahn, Technische Universität Berlin

16h00 – 17h00

Joulia.jl – A Large-Scale Spatial Open-Source Electricity

Sector Model Using The Julia Language

SOCIAL DINNER

Only for PhDs and junior researchers registered for the event

Hills & Mills restaurant

19h00

[Oude Langendijk 6, Delft](#)

Day 2: Friday, April 13

Morning Session: Classroom E

Michael Chesser, Dublin Institute of Technology	9h00 – 10h00
<i>Is Empowering Irish Energy Citizens Working?</i>	
Ann-Katrin Hanke, Karlsruhe Institute of Technology	10h00 – 11h00
<i>Reducing Cost Uncertainty By Refunding Prequalification Costs</i>	
<i>In Auctions For Renewable Energy Support</i>	
Anna Garcia-Teruel, The University of Edinburgh	11h00 – 12h00
<i>Integrating Socio-Economic Scenarios Into Power System Modelling:</i>	
<i>A Case Study Of The Energy Transition In Europe</i>	

Morning Session: Classroom D

Sam Hamels, Ghent University	9h00 – 10h00
<i>Replacing Fossil-Fuelled Peakers With Batteries – A Security Of Supply Perspective</i>	
Carla Mendes, University of Basel	10h00 – 11h00
<i>Pricing Reliability – On Optimal Imbalance Prices</i>	
Meng Wang, Delft University of Technology	11h00 – 12h00
<i>Efficient Heating And Cooling Approaches By Using The</i>	
<i>Novel Ionic Liquids Within NH3 Absorption Systems</i>	

CLOSING

	<i>Classroom A</i>
Closing speech and announcements	12h00 – 12h30

SOCIAL ACTIVITY

Tour of the Rotterdam harbor	Finish 17h00
	in Rotterdam
