

SEMINAR

Young Energy Economist and Engineers Seminar | YEEES

Organisers:

Athir Nouicer | Florence School of Regulation

Tim Schittekatte | Florence School of Regulation

Location:

Emeroteca

Badia, Via della Badia dei Roccettini, 9, 50014 Fiesole FI

8 – 9 November 2018

■ INTRODUCTION

Florence School of Regulation (FSR) is pleased to host the 25th edition of the Young Energy Economist and Engineer Seminar.

The seminar lasts for 2 days. Each day will be divided in several sessions clustering the research topics and during which the researchers will present their papers and receive feedback from the a junior (another participant) and a senior reviewer. For each paper there are 45 minutes allocated. The author has 20 minutes to present her/his work. After, each reviewer has 5 minutes to ask questions. In the remaining 15 minutes the author responds to the reviewers and the floor is opened for the audience.

Program

8 November	DAY 1: Climate and novelties at the distribution level
09.00 - 9.30	Welcome and Introduction of the Participants Nicolò Rossetto Research Associate - Florence School of Regulation / RSCAS / EUI Athir Nouicer Research Associate- Florence School of Regulation / RSCAS / EUI Tim Schittekatte Research Associate - Florence School of Regulation / RSCAS / EUI
09.30 - 11.00	Presentations of Selected Research Papers on environmental policy (1/2) Chair: Isabella Alloisio Research Associate - Florence School of Regulation 9.30 – 10.15: Maja Zarkovic - The untold story of Climate Policy: A study of firm-level 10.15 – 11.00: Inês Carrilho Nunes - Are alternative energies gathering momentum? The combined influence of oil prices and environmental policy
11.00 - 11.30	<i>Coffee Break</i>
11.30 - 13.00	Presentations of Selected Research Papers on environmental policy (2/2) Chair: Stefano Verde Research Fellow - Florence School of Regulation 11.30 – 12.15: Sandra Schusser - Green behavioural (in)consistencies: Are pro-environmental behaviours in different domains substitutes or complements? 12.15 – 13.00: Busra Gencer - How do roadmaps and their framing impact regulatory decisions towards environmental targets?
13.00 - 14.00	<i>Lunch</i>
14.00 - 15.30	Presentations of Selected Research Papers on distribution network tariffs Chair: Nicolò Rossetto Research Associate - Florence School of Regulation 14.00 – 14.45: Niels Govaerts - Spillover Effects of Distribution Grid Tariffs in the Internal Electricity Market: an Argument for Harmonization? 14.45 – 15.30: Quentin Hoarau - Network tariff design with distributed energy resources and electric vehicles
15.30 - 16.00	<i>Coffee Break</i>
16.00 - 17.30	Presentations of Selected Research Papers on DER and EVs Chair: Pradyumna Bhagwat Research Fellow - Florence School of Regulation 16.00 – 16.45: Andrew Thompson - Economic Implications of Lithium Ion Battery Degradation for Vehicle-to-Grid (V2X) Services 16.45- 17:30: Jan Paul Baginski - Spatio-temporal diffusion of residential solar thermal systems in Germany: A spatial panel data analysis
Evening	Social program

9 November	Day 2: Market Design, infrastructure and generation investment
09.00 - 9.30	Welcome coffee
09.30 - 11.00	Presentations of Selected Research Papers on market design Chair: Tiago Barros Correia Visiting Fellow - Florence School of Regulation 9.30 – 10.15: Morgan Patty - Information Value in Capacity Market Designs 10.15 – 11.00: Clara Balardy - Complementarity between an auction and a continuous market: The case of the German power intraday market for 15 min contracts
11.00 - 11.30	<i>Coffee Break</i>
11.30 - 13.00	Presentations of Selected Research Papers on electricity prices and renewables Chair: Lucila De Almeida Research Associate - Florence School of Regulation/ University of Helsinki 11.30 – 12.15: Franziska Schöninger - The impact of intermittent renewable energies on price variance in European spot markets 12.15 – 13:00: Philip Schnaars - The real substitution effect of renewable electricity
13.00 - 14.00	<i>Lunch</i>
14.00 - 15.30	Presentations of Selected Research Papers on generation investment Chair: Pradyumna Bhagwat Research Fellow - Florence School of Regulation 14.00 – 14.45: Sam Hamels - The potential impact of batteries replacing fossil-fueled peaker plants in Europe 14.45 – 15.30: Juan Martinez - Towards a solar-hydro based generation: the case of Switzerland
15.30 - 16.00	<i>Coffee Break</i>
16.00 - 17.30	Presentations of Selected Research Papers on infrastructure Chair: Jens Weibezahn TU Berlin 16.00 – 16.45: Roberto Cardinale - The profitability of transnational energy infrastructure: A comparative analysis of the Greenstream and Galsi gas pipelines 16.45 – 17.30: Steffi Schreiber - What is the optimal decarbonisation pathway for Europe in the long-term?
Evening	Social program

■ List of participants

Isabella Alloisio | Florence School of Regulation

Jan Paul Baginski | University Duisburg-Essen, House of Energy Markets & Finance

Pradyumna Bhagwat | Florence School of Regulation

Clara Balardy | Université Paris-Dauphine

Tiago Barros Correia | Florence School of Regulation

Roberto Cardinale | University College London

Inês Carrilho Nunes | IST - University of Lisbon

Lucila De Almeida | Florence School of Regulation/ University of Helsinki

Busra Gencer | HEC Lausanne

Niels Govaerts | KU Leuven / VITO

Sam Hamels | Universiteit Gent

Quentin Hoarau | Université Paris-Sud

Tarun Khanna | Hertie School of Governance

Juan Martinez | Université de Lausanne

Athir Nouicer | Florence School of Regulation

Morgan Patty | Université Paris-Dauphine

Valerie Reif | Florence School of Regulation

Nicolò Rossetto | Florence School of Regulation

Philip Schnaars | Universität Hamburg

Franziska Schöniger | Energy Economics Group, TU Wien

Tim Schittekatte | Florence School of Regulation

Steffi Schreiber | Technische Universität Dresden

Sandra Schusser | Swedish Agricultural University

Jens Weibezahn | TU Berlin

Stefano Verde | Florence School of Regulation

Maja Zarkovic | University of Basel
