YOUNG ENERGY ECONOMISTS AND ENGINEERS SEMINAR | YEEES

Online – Zoom link after registration

2 - 4 June 2021

CentraleSupélec and the French Association for Energy Economics (FAEE) are pleased to host the 28th edition of the Young Energy Economists and Engineers Seminar.

The seminar lasts for three days. Each day will be divided in several sessions clustering the research topics and during which the researchers will present their papers and receive feedback from a junior (another participant) and a senior reviewer. For each paper there are 45 minutes allocated. The author has 20 minutes to present her/his work. After that, each reviewer has five minutes to comment and ask questions. In the remaining 15 minutes the author responds to the reviewers and the floor is opened for the audience.
