

YEEES 30 - Copenhagen

September 7-8, 2022

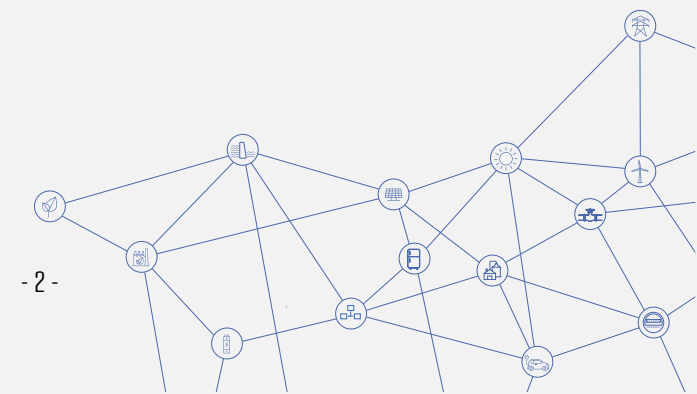

Where: Copenhagen Business School, Dalgas Have 15, 2000 Frederiksberg

Wednesday, September 7, 2022

	Session A – DH.Ø.1.20	Session B – DH.Ø.0.80
08.30 – 09.00	Welcome and Coffee	
09.00 – 09.15	Welcome to YEEES	
09.15 – 10.05 (1)	Tanja Mast (Technische Hochschule Ingolstadt): <i>Modelling Smart Markets As A Market-Based Complement To German Congestion Management</i> SR: Christine Brandstätt (CBS), JR: Paul Reggentin	Inês Carrilho Nunes (Instituto Superior Técnico): <i>Did Covid-19 Change The Decarbonization Path? A Panel VECM Approach</i> SR: Karyn Morrissey (DTU), JR: Felix Michelet
10.05 – 10.55 (2)	Paul Reggentin (University of Freiburg): <i>Low Demand Scenarios For A Low-Carbon European Energy System</i> SR: Rasmus Bramstoft (DTU), JR: Chandra Kant Jat	Felix Michelet (Mines Paris - PSL): <i>The Impact Of The Coal Gas Relative Price On The CO₂ Marginal Abatement Effect Of Renewable Electricity</i> SR: Manuel Llorca (CBS), JR: Clemens Stiewe
10.55 – 11.15	VITAMIN BREAK	
11.15 – 12.05 (3)	Ruben van Beesten (NTNU): <i>Transmission Capacity Reduction In International Electricity Networks: Economic Incentives And Welfare Effects</i> SR: Karyn Morrissey (DTU), JR: Ulrike Pfefferer	Silvana Tiedemann (Hertie School): <i>Bidders' Experience And Prices In Renewable Energy Auctions</i> SR: Marek Giebel (CBS), JR: Mostafa Fallahnejad
12.05 – 13.20	LUNCH	

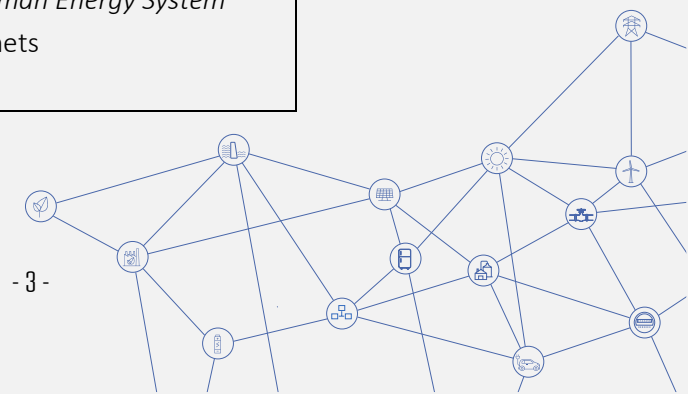

13.20 – 14.10 (4)	Johannes Giehl (TU Berlin): <i>An Open-Source Business Model Evaluation Tool For Sector Coupling Technologies: Application On Green Hydrogen Use Cases</i> SR: Per Sieverts Nielsen (DTU), JR: Dongchen He	Clemens Stiewe (Hertie School): <i>Energy Demand In Times Of Crisis</i> SR: Ismir Mulalic (CBS), JR: Inês Carrilho Nunes
14.10 – 15.00 (5)	Dongchen He (Tilburg University): <i>Efficient Investment And Pricing For Flexibility In Electricity Markets</i> SR: Xiao-Bing Zhang (DTU), JR: Johannes Giehl	Ulrike Pfefferer (FAU Erlangen-Nürnberg): <i>The German Coal Exit Under Updated Circumstances</i> SR: Ruben van Beesten (NTNU), JR: Johannes Wirth
15.00 – 15.20	VITAMIN BREAK	
15.20 – 16.10 (6)	Adrienne de Bazelaire (CentraleSupélec & RTE): <i>Power Network Planning With Flexibility Under Long-Term Renewable Capacity And Location Uncertainties</i> SR: Tooraj Jamasb (CBS), JR: Maria de Oliveira Loureiro	Johannes Wirth (FAU Erlangen-Nürnberg): <i>Investments In Coupled Energy Sectors And Market Pricing</i> SR: Rasmus Bramstoft (DTU), JR: Clément Cabot
16.10 – 17.00 (7)	Wout Behaeghel (Ghent University): <i>Economic Attractiveness Of Power-To-Gas In Europe</i> SR: Jens Weibezahn (CBS), JR: Alexander Roth"	Chandra Kant Jat (KU Leuven): <i>Cost-Effective Planning Of Offshore HVDC Grids With Mixed Monopolar And Bipolar Line Configurations</i> SR: Nicolaos Cutululis (DTU), JR: Tanja Mast
18.00	DINNER	

Thursday, September 8, 2022

	Session A – DH.Ø.0.41	Session B – DH.Ø.1.23
09.00 – 09.15	COFFEE	
09.15 – 10.05 (1)	Theresia Perger (TU Wien): <i>Upscaling Energy Community Potential To European Level</i> SR: Jens Weibezahn (CBS), JR: Christoph Tries	Ruben Smets (KU Leuven): <i>Internalizing Machine Learning Methods In Optimization Models For Strategic Energy Storage Systems In Real-Time Balancing Markets</i> SR: Phoebe Koundouri (DTU/AUEB), JR: Albin Kasser
10.05 – 10.55 (2)	Christoph Tries (TU Berlin): <i>Benefits Of Hydrogen Islanding In Europe</i> SR: Sam Hamels (Ghent University), JR: Theresia Perger	Albin Kasser (Université Paris-Saclay, INRAE & ENGIE): <i>A Sustainable Market Niche For Hydrogen In The Transport Sector?</i> SR: Manuel Llorca (CBS), JR: Flora von Mikulicz-Radecki
10.55 – 11.15	VITAMIN BREAK	
11.15 – 12.05 (3)	Clément Cabot (Mines Paris - PSL): <i>Electrification Of The Hard-To-Abate Chemical Sector: Implication For Net-Zero Power Systems In Europe</i> SR: Lissy Langer (DTU), JR: Ruben van Beesten	Bjoern Steigerwald (TU Berlin): <i>Nuclear Bias In Energy Scenarios – A Review And Results From An In-Depth Analysis Of Long-Term Decarbonisation Scenarios</i> SR: Phoebe Koundouri (DTU/AUEB), JR: Théotime Coudray
12.05 – 13.20	LUNCH	
13.20 – 14.10 (4)	Mostafa Fallahnejad (TU Wien): <i>Overview Of District Heating Potentials In Eu-27 Countries Under Evolving DH Market Shares And Ambitious Heat Demand Reduction Scenario</i> SR: Claire Bergaentzlé (DTU), JR: Matthias Hofmann	Flora von Mikulicz-Radecki (Aalto University): <i>Computational Evaluation Of Hydrogen Transportation Networks - A Case Study On The German Energy System</i> SR: Lissy Langer (DTU), JR: Ruben Smets

14.10 – 15.00 (5)	Matthias Hofmann (NTNU & Statnett): <i>The Potential Of Implicit Demand Flexibility In Cold Climate - Results From A Norwegian Pricing Experiment With Households</i> SR: Sam Hamels (Ghent University), JR: Viktor Müller	Théotime Coudray (Université Montpellier): <i>Regional Power System Flexibility Management Under An Energy Transition Scenario: The Case Of French Region Occitanie</i> SR: Ugur Soytaş (DTU), JR: Björn Steigerwald
15.00 – 15.20	VITAMIN BREAK	
15.20 – 16.10 (6)	Maria de Oliveira Loureiro (Chalmers University of Technology): <i>Rural Transport Decarbonization: Every Dilemma Has A Solution</i> SR: Phoebe Koundouri (DTU/AUEB), JR: Adrienne de Bazelaire	Viktor Müller (Fraunhofer ISI): <i>Economic Complexity Of Green Hydrogen Technologies - An International Historical Trade Data Analysis</i> SR: Fabian Scheller (DTU), JR: Silvana Tiedemann
16.10 – 17.00 (7)	Alexander Roth (DIW Berlin): <i>Why Geographical Balancing Decreases Electricity Storage Needs: A Model-Based Illustration For Europe</i> SR: Xiufeng Liu (DTU), JR: Wout Behaeghel	

Presenters and reviewers are automatically signed up for the workshop. If you wish to register as a regular participant, please sign up here:

<https://cbs.nemtilmeld.dk/481/>

Coffee, tea, snacks, and lunch will be provided. All food served will be vegetarian. For any questions, please email us at enerforsk@cbs.dk.

ENERforsk is a network to connect energy researchers in Denmark (and neighboring countries). You can find more info here: www.csei.eu/enerforsk.

ENERforsk is supported by Copenhagen School of Energy Infrastructure, DTU Management – Energy Economics and System Analysis, and DTU Wind – Society, Market and Policy.

ENERforsk receives funding from Copenhagen Business School.
