

Thursday October 5th, 2023

08:00 – 08:30: Welcome Coffee 08:30 – 09:00: Opening by Veronika Grimm, Johannes Wirth & Ulrike Pfefferer Room LG 2.429	
Stream A in room LG 5.430	Stream B in room LG 2.429
09:00 – 09:50 Measuring the Retrofitting Potential of the Natural German Gas Grid (Lucas De La Fuente – TU Dresden) Senior Review: Julia Grübel, Junior Review: Leon Schumm	09:00 – 09:50 Optimal de-risking strategies for breakthrough technologies: Risk allocation in the transformation of the basic materials industry (Darius Sultani – PIK Potsdam) Senior Review: Marie-Louise Arlt, Junior Review: Nienke Dhondt
10:00 – 10:50 Synergies and Conflicts of Hydrogen Export and National Energy Transition in Morocco (Leon Schumm – OTH Regensburg) Senior Review: Jonas Egerer, Junior Review: Louis Merceron	10:00 – 10:50 How does cash windfall impact firm behavior - Evidence from the US power market (Alida Johannsen – TU Munich) Senior Review: Marie-Louise Arlt, Junior Review: Félix Michelet
11:00 – 11:50 Industrial Clustering for Multi-Node Energy System Modelling (Nienke Dhondt – Ghent University) Senior Review: Gregor Zöttl, Junior Review: Darius Sultani	11:00 – 11:50 The Effect of Energy Saving Obligations (ESOs) on Residential Energy Use: Empirical Evidence from France (Guillaume Wald – Mines Paris - PSL) Senior Review: Mostafa Fallahnejad, Junior Review: Ali Kök
Lunch in room LG 2.429	
13:00 – 13:50 Techno-environmental multi-objective optimization of energy systems for an off-grid telescope (Isabelle Viole – University of Oslo) Senior Review: Hans Auer, Junior Review: Adeline Guéret	13:00 – 13:50 Climate neutrality and carbon cycle of French energy system: a focus on e-bio-fuels integration and resources requirements (Louis Merceron – CEA/EPFL) Senior Review: Fabian Scheller, Junior Review: Lucas De La Fuente
14:00 – 14:50 The impact of increased electricity interconnection capacity on emissions and prices: Evidence from Spain and France (Félix Michelet – Mines Paris - PSL) Senior Review: Mario Liebensteiner, Junior Review: Yodefia Rahmad	14:00 – 14:50 The Effect of Future Financial Benefits on PV Adoption Patterns (Justus Böning – KU Leuven) Senior Review: Fabian Scheller, Junior Review: Alida Johannsen
Coffee Break in room LG 2.429	
15:20 – 16:10 Spatial heterogeneity in deployment and upscaling of wind power in Swedish municipalities (Yodefia Rahmad – Chalmers University of Technology) Senior Review: Hans Auer, Junior Review: Justus Böning	15:20 – 16:10 Who are the citizens participating in renewable energy cooperatives? A study based on both stated preferences and trace data (Melita Van Steenberghe – Ghent University) Senior Review: Verena Tiefenbeck, Junior Review: Carlotta Irrgang
	16:20 – 17:10 Profile contracts for retail customers (Héctor Ramírez – Zurich University of Applied Sciences) Senior Review: Verena Tiefenbeck, Junior Review: Simon Brandkamp
19:00: Conference Dinner at Restaurant Zum Spiessgesellen, Rathausplatz 4, 90403 Nuremberg	

Friday October 6th, 2023

08:30 – 09:00: Welcome Coffee Room LG 2.429	
Stream A in room LG 5.430	Stream B in room LG 2.429
09:00 – 09:50 Welfare redistribution through different flexibility deployment strategies - Who pays? (Polina Emelianova – EWI Cologne) Senior: Sam Hamels, Junior Review: Tanja Mast	09:00 – 09:50 Performance of Renewable Energy Policies – Evidence from Germany's Transition to Auctions (Daniel Geßner – JMU Würzburg) Senior Review: Sebastian Schwenen, Junior Review: Thomas Hübner
10:00 – 10:50 Consideration of Distribution Grid Constrains in Transmission Grid Models for Congestion Management in Germany (Tanja Mast – TH Ingolstadt) Senior Review: Ben Gernsberger, Junior Review: Isabelle Viole	10:00 – 10:50 Bids on Combinatorial Electricity Auctions: Why Europe is not as bad off as thought (Thomas Hübner – ETH Zürich) Senior Review: Vasilios Anagnostis, Junior Review: Runxi Wang
Coffee Break in room LG 2.429	
11:10 – 12:00 Power system impacts of electric carsharing in Germany in 2030 (Adeline Guéret – DIW Berlin & TU Berlin) Senior Review: Joannes Laveyne, Junior Review: Nils Namockel	11:00 – 11:50 Sequake of magnitude 12.6: The record-breaking German offshore wind auction (Runxi Wang – Karlsruhe Institute of Technology) Senior Review: Vasilios Anagnostis, Junior Review: Daniel Geßner
12:10 – 13:00 Hedging households against extreme electricity prices (Simon Brandkamp – University of Cologne) Senior Review: Joannes Laveyne, Junior Review: Héctor Ramírez	12:10 – 13:00 Paradigm shift in long-term decarbonization Scenarios? A review and results of an in-depth analysis of current IPCC data (Björn Steigerwald – TU Berlin) Senior Review: Jonas Egerer, Junior Review: Alice Lixuan Xu
Lunch in room LG 2.429	
14:10 – 15:00 Flexibility potentials from the private household sector with optimization of self-consumption for different technology configurations in 2030: A methodology for analyzing flexibility potentials (Carlotta Irrgang – Intelligent Energy System Services) Senior Review: Sam Hamels, Junior Review: Matteo Zuch	14:10 – 15:00 Does Cross-Border Trade Stabilize Renewable Market Values? Insights from a European Panel Analysis (Alice Lixuan Xu – Hertie School) Senior Review: Mario Liebensteiner, Junior Review: Björn Steigerwald
15:10 – 16:00 Carbon Footprints on my Doorstep: Investigating the relationship between scope, spatial characteristics, and willingness to pay for carbon capture and storage in Denmark (Matteo Zuch - DTU) Senior Review: Xiaoyu Zhou, Junior Review: Melita Van Steenberghe	15:10 – 16:00 Achieving Carbon Neutrality in District Heating: The Impact of Temperature Levels on the Supply Mix of EU-27 in 2050 (Ali Kök – TU Wien) Senior Review: Christian Sölch, Junior Review: Guillaume Wald
16:00: Goodbye
